

INSTRUCTIONS

Please check that you have all parts. (Located in attached bag)

- Ground stakes (some items have ground stakes welded on the frame) (hanging items do not come with ground stakes.)
- pkg of asst. color clips (replacements)
- Wing bolts (only if item has hinges)

Attach ground stakes by screwing them into the bottom provided slots on your decoration. You may need an adjustable wrench. Not applicable for hanging items.

Push ground stake gently into the ground. You can do this with your foot and using a back and forth motion to inch each side gradually into the ground.

Tall items may need extra support. You can do this by driving a long stake behind the decoration (you can purchase this at your local hardware store.) Attach the decoration to the stake with a twist tie or cable tie.

Plug decoration into extension cord.

For the best look, straighten clips to align them to the shape of the metal frame.
