

PENGUIN FISHING

Please check that you have all parts. (Located in attached bag)

- 4 ground stakes
- 1 pkg. of asst. color clips (replacement)
- 1 gray 2 point controller

Attach ground stakes by screwing them into the bottom provided slots. You may need an adjustable wrench.

Push ground stakes gently into the ground. You can do this with your foot and using a back and forth motion to inch each side gradually into the ground.

1. First plug the penguin to an extension cord (not included) Then plug in the water hole (non animated part) into the back of the penguin plug. The plugs will be stacked.
2. Then Plug in animated parts. First plug the controller into an extension cord. The fishing poles use the 2 point controller. Two male plugs are labeled Green 1 and Red 2. Plug the Green 1 into the Green 1 on the controller. Plug the Red 2 into the Red 2 on the controller. Adjust speed to your liking

For the best look, straighten clips. Also, if you live in an area with lots of rain or snow, you may want to take extra precaution to cover your controllers.
